Welcome to

6th Congress of transfusion medicine specialists of Serbia and 1st international Congress of Transfusion Medicine Association of Serbia which will be held in Belgrade, from November 7th till November 10th 2018, in the Crowne Plaza hotel.

The Congress is organized by Association of the transfusion medicine specialists of Serbia and Transfusion medicine section of Serbian Medical Society. Congress will gather well known scientists and professionals from Serbia, region and the world. This great professional event will be devoted to the transfusion topics important for the promotion, motivation and the maintenance of the sufficient number of the voluntary blood donors, treating of the sick and injured in the domain of transplant medicine and the safe blood transfusion, as well as the priorities of the actual clinical transfusion therapies. Particular importance will be given to the implementation of the new Law of transfusion medicine and the current principles of the reorganization of the Serbian transfusion medicine service, which is under the process of implementation, Promotion of the Register of rare blood groups and the Register of the bone marrow donors. We will talk also about the place and the role of the immunohaematology in the era of molecular investigation of blood groups, current apheresis procedures and the role of the transfusion medicine specialists in the tissue and organ transplantation.

The main topics at the Congress will be: blood donation, immunohaematology and molecular immunohaematology, blood components, clinical transfusion medicine, haemostasis and haemostasis disorders, immunobiology, transplant medicine, transfusion transmitted diseases and quality in transfusion medicine. The Technician Day within the Congress was established during the previous Congress, and is planned to gather the great number of the technicians who are employed in the blood transfusion centers in the country and abroad. Lectures and abstracts will be printed in Serbian and English in "Bulletin of transfusiology" (Lectures and Abstract Book).

Congress will take place in Belgrade, the capital of Serbia, known as the crossroad or the gate of Balkan. A lot of historical monuments, well known generosity of the inhabitants and the unique atmosphere in the streets and restaurants of Belgrade are the additional reasons for all of us to gather at the 6th Congress of transfusion medicine specialists of Serbia with international participation.

We are looking forward to welcome you in Belgrade.
